The

of

Distance

the

Moon

Italo Calvino

The background is a dark grey. On the left, there is a stylized representation of a galaxy with several concentric, curved lines in a dark blue color. Scattered throughout this area are small white dots representing stars, and larger, colorful shapes in yellow, orange, and blue representing planets or nebulae. On the right, there is a stylized representation of a planet or moon, shown as a dark grey circle with several white, irregular shapes on its surface, suggesting craters or features. The overall style is minimalist and graphic.
